**PRODUCT
SPECIFICATION**

TCG010 SIL

Product	Coating
ONE SIDE PTFE / ONE SIDE SILICONE COATED FABRIC	PTFE / SILICONE

A non-stick, reusable mat with a PTFE coating on one side and a Silicone coating on the other. The PTFE coating provides a smooth non-stick surface, whilst the silicone guarantees the mat stays in place when rolling out pastry, marzipan, etc., The mat will withstand temperatures up to 230°C therefore is suitable to roll pastry, cookies, etc onto; then go straight from the worktop into the oven.

Properties	Value	Unit
Standard width(s) <i>Please ask for other widths</i>	1000	mm
Thickness	0.31	mm
Weight	555	gr/m ²
Tensile strength	2300	N/5 cm
Temperature resistance	230	°C

Note: Nominal thickness, weight and tensile strength values are typical and are not intended as a specification minimum.
Weight Tolerance g/m² = ±%5

All technical data are based on average values. These values are not intended for use in preparing specifications. Technical information contained here in are based on test results GORTEF believes to be reliable, but they are not to be construed in any manner as warranties expressed.
