PTFE GLASS FABRIC SELF ADHESIVE	INDUSTRIAL SERIE	SILICONE PSA

Gortef Industrial Series PTFE/glass fabrics coated on one side with high temperature pressure sensitive silicone adhesive. Yellow textured PVC release liner is applied to the adhesive surface for ease of application.
Some application: Easy release surface on heat sealing and packaging machines, ironing and pressing equipment, covering drying cylinders, lining chutes, release surface on bonding tools.

Properties	Value	Unit
Standart width(s) <i>Please ask for other widths</i>	1000, 1500	mm
Backing thickness	0,22	mm
Total thickness	0,27	mm
Backing weight	455	gr/m ²
Adhesion	6,00	N/cm
Temperature resistance	-73 / +260	°C

Note: Nominal thickness, weight and adhesion values are typical and are not intended as a specification minimum.
Weight Tolerance g/m² = ±%5
