

TCG010 RED

Product	Product category	Coating
PTFE GLASS FABRIC	SPECIALTY SERIES	PTFE

828.25 RED is a high-strength, very smooth PTFE-coated glass fabric with excellent release properties.

The surface of the 828.25 RED is designed to be micro-crack free and resistant to fats and oils. It is typically used as a conveyor belt in contact grilling, plastic and polymer processing.

Properties	Value	Unit
Standard width(s) <i>Please ask for other widths</i>	1000, 1250, 1500	mm
Thickness	0.28	mm
Weight	560	gr/m ²
PTFE content	65	%
Tensile strength	2300	N/5 cm
Temperature resistance	260	°C

Note: Nominal thickness, weight and tensile strength values are typical and are not intended as a specification minimum.

Weight Tolerance g/m² = ±%5
